NORTHFRAME · WEBSITE DESIGN

A website concept for 4 Ever Green Tree Care

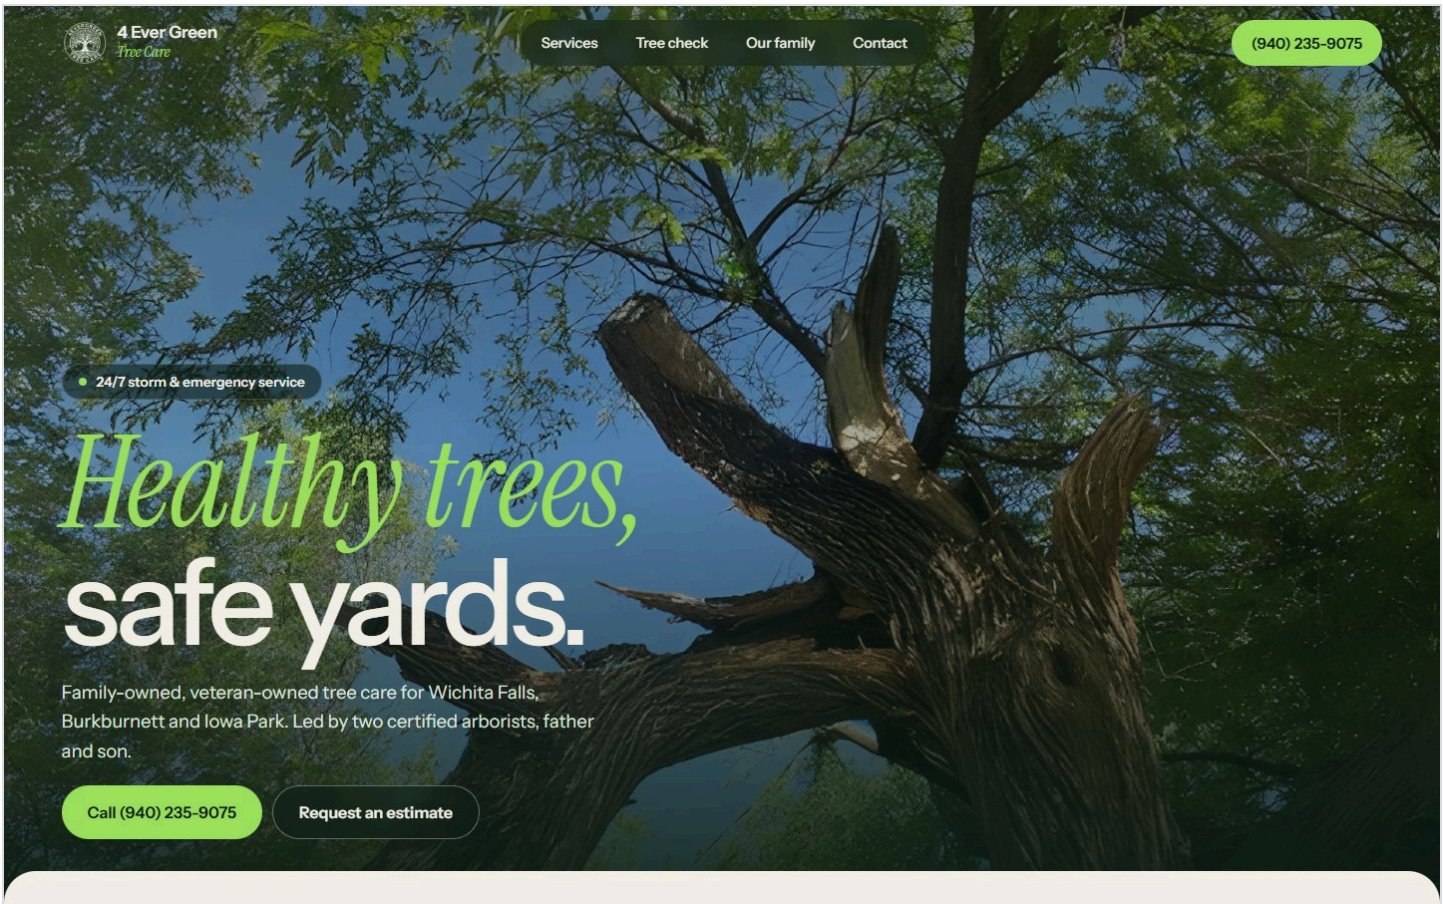

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your phone number and 24/7 storm service one tap away on a phone
- A tree check: visitors tick the warning signs from your FAQ and see them light up on a drawn tree
- Your services as big, clear rows and Mike and Leith as the certified arborists behind the work

This is a design preview, not a live replacement for your current site. Services, FAQ answers and photos come from your current website and would be confirmed with you before anything goes live. Job photos were upscaled for this preview; the tree drawing is an illustration.

WHAT WE DO

No matter the size or species of your trees, our team handles them with care, and cleans up after itself. Trimmed branches become firewood and mulch.

Tree trimming

Crossed, dead and overgrown branches out, including limbs growing too close to power lines. Pruning and selective trimming for healthy growth.

Tree removal

Stump grinding

Tree health

Storm cleanup

Firewood

TREE CHECK

Is your tree *in trouble?*

Tick what you see. These are the signs our arborists look for before recommending a removal.

- [ ] Visible decay or damage
- [ ] Leaning or tilting
- [ ] Dead branches
- [ ] Damaged roots
- [ ] Signs of disease or insects

Nothing ticked yet. Regular trimming keeps it that way.

Ask for an assessment

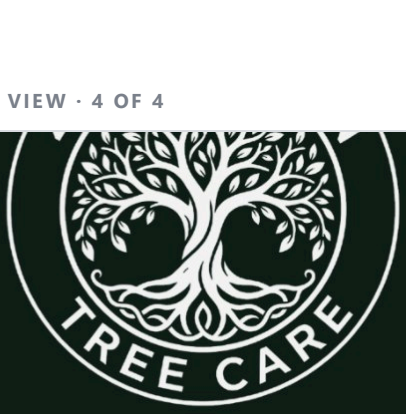

DONE RIGHT, CLEANED UP

Overgrown branches make a property look messy and can hinder a tree's growth. We take care of them, and we always clean up after ourselves.

FAMILY-OWNED · VETERAN-OWNED SINCE 2016

Mike and Leith Manary, *certified arborists*

certified arborists.

Mike grew up in a military family, graduated from Wichita Falls High School and served overseas in Germany. Back home he earned a Bachelor of Science in Biology and Chemistry at Midwestern State University, and he has run 4 Ever Green as owner, operator and certified arborist since 2016.

Today he leads the crew with his son Leith, also a certified arborist. Their goal: trees that stay safe, healthy and beautiful for generations to come.
