A website concept for Ted Coverage

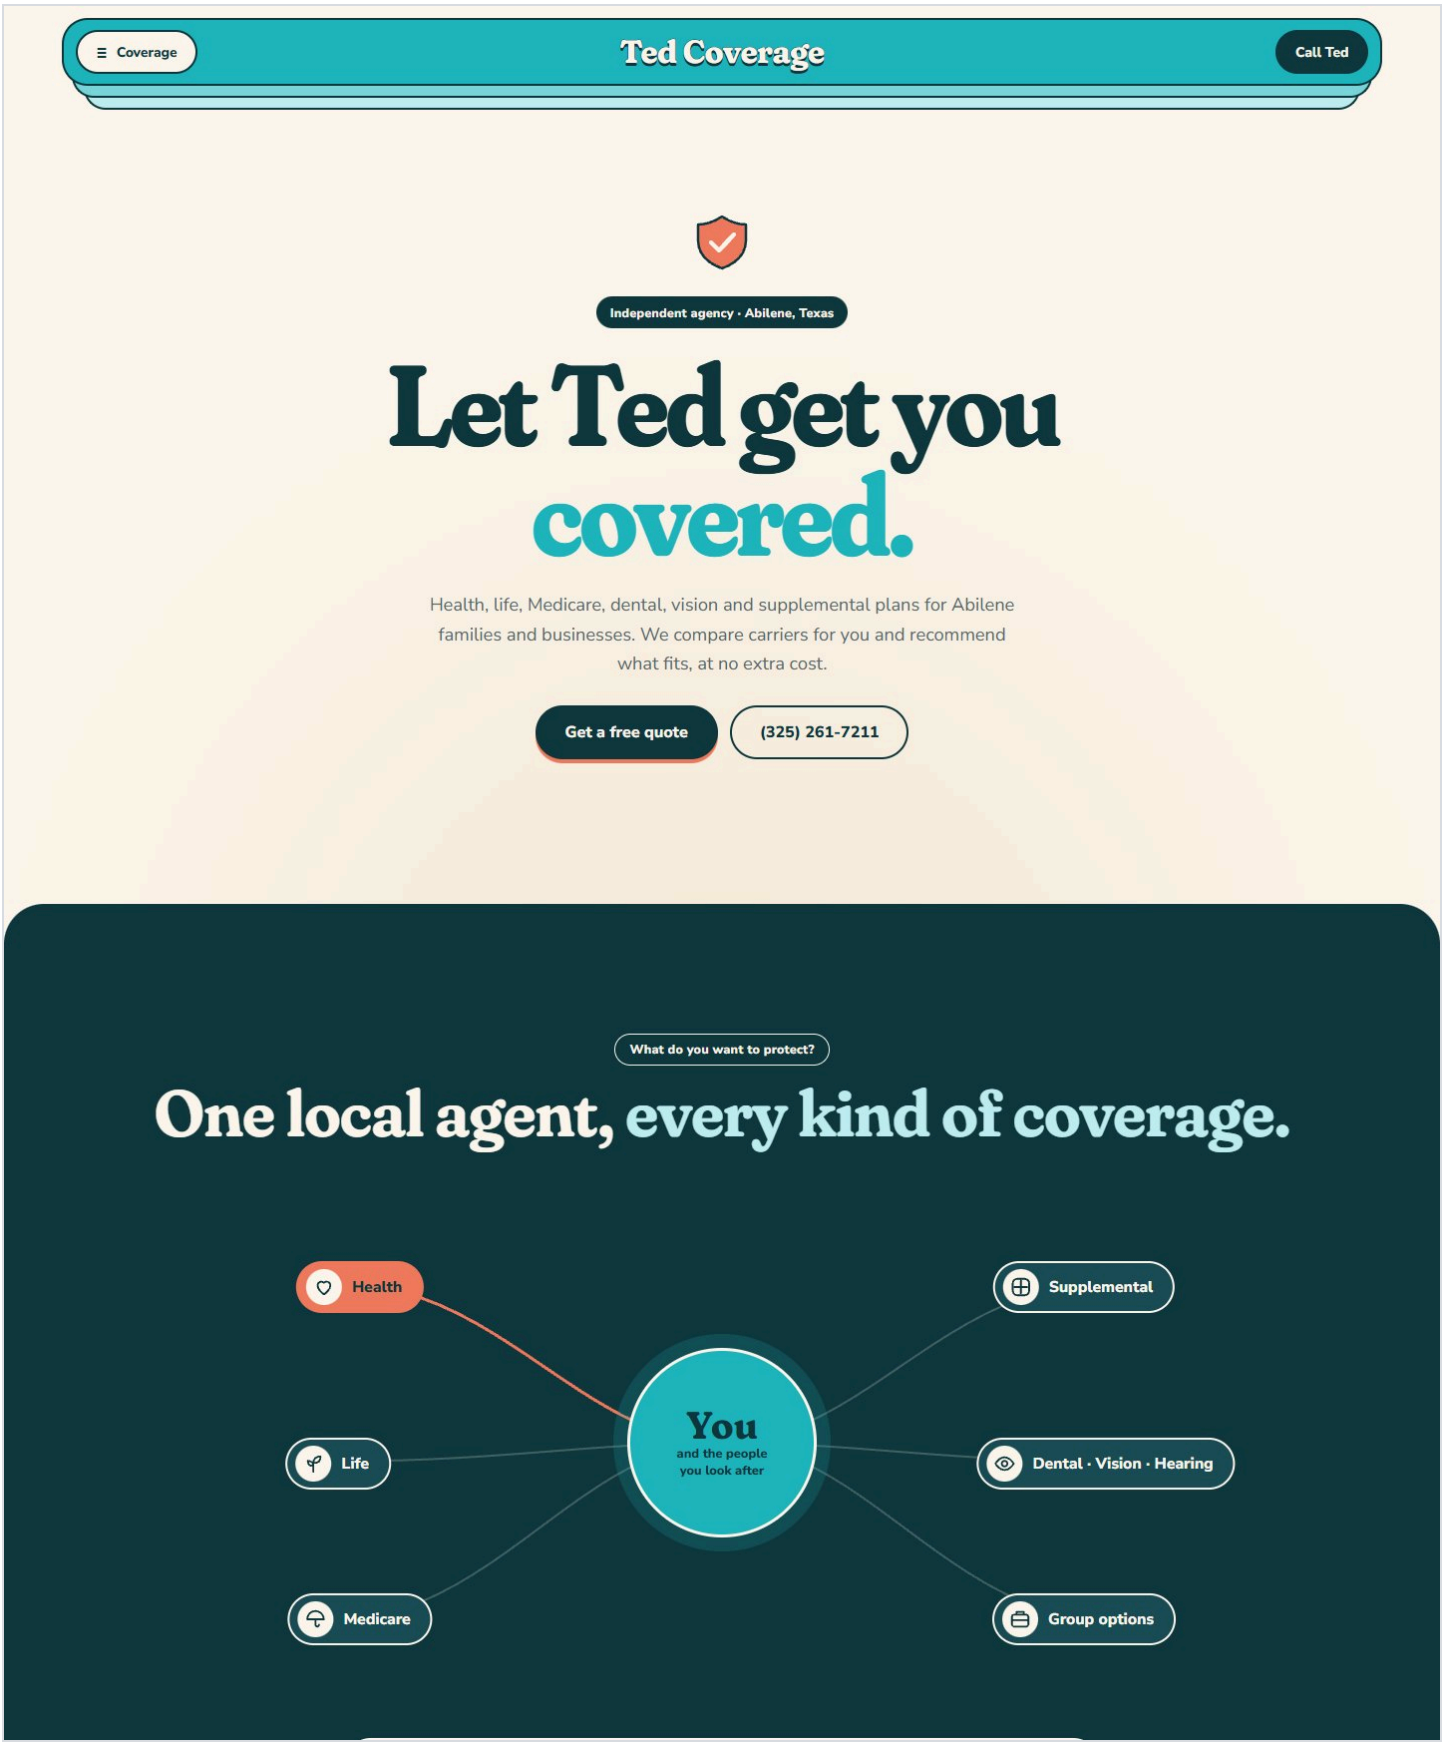

An independent design proposal: how your website could look on a desktop screen and on a phone.

- "Call Ted" and a free quote one tap away on a phone
- A coverage map: visitors pick health, life, Medicare or supplemental and see what you offer there
- You as the person they talk to, with your clients' words and straight answers

This is a design preview, not a live replacement for your current site. Services, answers, reviews and your photo come from your current website and would be confirmed with you before anything goes live.
