NORTHFRAME · WEBSITE DESIGN

A website concept for Weatherl & Associates

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your email and phone one tap away on a phone
- "Abilene, by year": The Grace, Heritage Square, the T&P Freight Warehouse and more, in the order they were built
- Your projects as a gallery or an index, and your awards from 2002 to 2020 in one place

This is a design preview, not a live replacement for your current site. Projects, history, awards and photos come from your current website and would be confirmed with you before anything goes live. Some photos were upscaled for this preview.

Adalbert-Stifter-Straße 31b, 65232 Taunusstein, Germany

ARCHITECTS · ABILENE, TEXAS · SINCE 1979

Preserving the past. Building the future.

Historic preservation and adaptive reuse, institutional, municipal and commercial buildings, and personalized homes. A principal is involved in every phase.

Start a project 325-672-1050

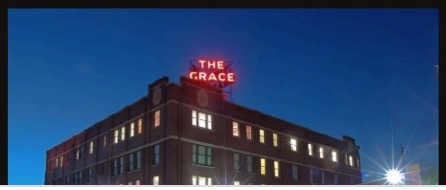

McMurry Old Main Rehabilitation · AIA Abilene Citation 2016

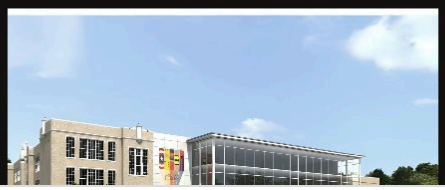

ABILENE, BY YEAR

Buildings that got a second life.

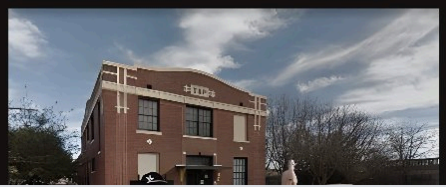

1909 BUILT

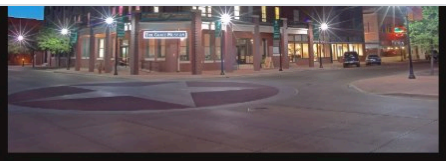

1923 BUILT

1929 BUILT

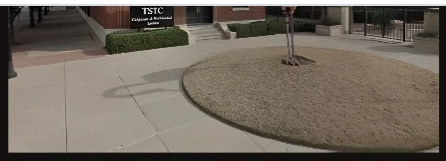

Hotel Grace → The Grace Museum

The finest hotel on the railroad between Fort Worth and El Paso, closed in 1973 and in ruin by the 1980s. Rehabilitated as The Grace Museum; multiple awards.

Abilene High School → Heritage Square

The 1923 academic building and 1929 gym keep their historic façades; new construction to the west creates a contemporary learning center. AIA Abilene Merit Award 2018.

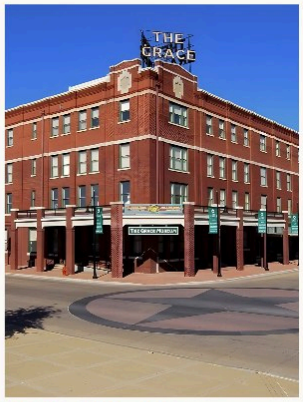

T&P Freight Warehouse

Built as Abilene's freight depot, rehabilitated and reopened in 1999. It anchors the southwest corner of the historic district.

HOW WE WORK

A principal in every phase.

Rick Weatherl, AIA founded the firm in 1979 on a personalized design approach that answers to each client, to the existing site and building, and to budget, schedule and construction methods. As managers of the design team, we work with trusted structural, mechanical, electrical and civil engineers.

01 Feasibility, cost estimating & analysis
02 Master planning
03 Programming & analysis
04 Site selection & development
05 Preservation, renovation & adaptive reuse
06 Building diagnostics
07 Space planning & interior design
