NORTHFRAME · WEBSITE DESIGN

A website concept for Texas Welding Company

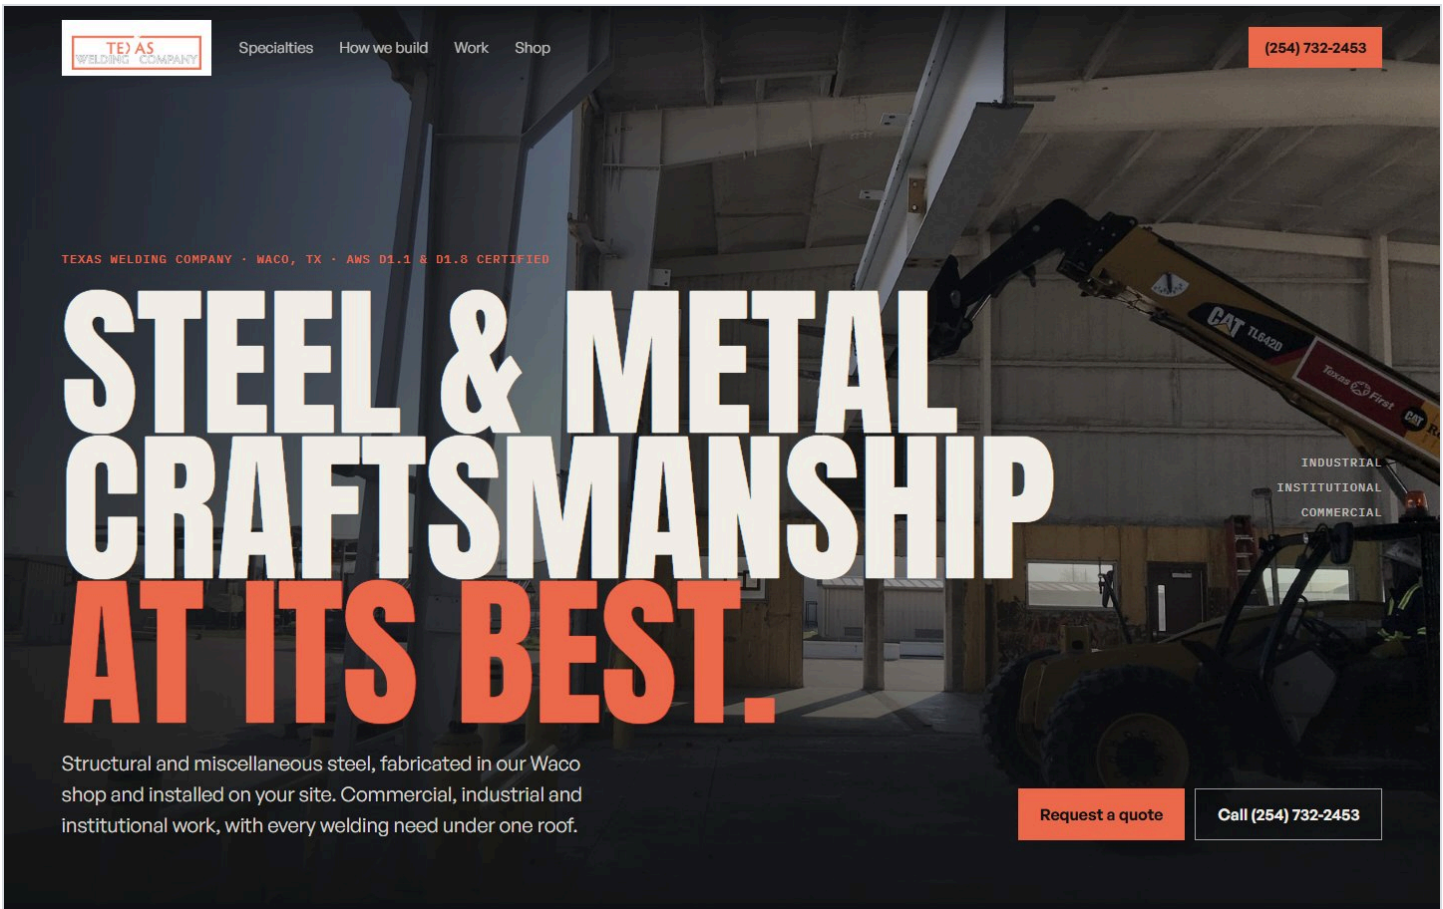

An independent design proposal: how your website could look on a desktop screen and on a phone.

- "Steel & metal craftsmanship at its best" in tall capitals over your own job-site photo, with the quote button one tap away
- A steel frame assembles as visitors scroll: columns rise, beams drop in, bracing is welded, then your finished truss appears
- Your five specialties as numbered rows, AWS D1.1 and D1.8, and your shop hours on Lacy Drive

This is a design preview, not a live replacement for your current site. Specialties, certifications, hours and photos come from your current website and would be confirmed with you before anything goes live.

ONE ROOF

Every welding need under one roof, so contractors skip the time and money lost to uncertain subcontractor relationships.

CODES	MEMBER	COVERAGE
AWS D1.1 · D1.8	AGC of Central Texas · AWS	Fully insured

SPECIALTIES

FIVE THINGS CONTRACTORS CALL US FOR.

01	PIPE BOLLARDS	Steel posts that guard doors, utilities and parking areas.
02	TRASH ENCLOSURE GATES	Steel frames and screened panels for dumpster enclosures.
03	EMBEDS	Steel plates and anchors to cast into concrete.
04	RTU REINFORCEMENTS	Steel frames and cages for rooftop and ground units.
05	REBAR REPAIR	Welding repairs to rebar, done on site.

HOW WE BUILD

FABRICATED IN WACO. INSTALLED ON SITE.

- COLUMNS CUT AND WELDED IN THE SHOP
- BEAMS SET AND BOLTED

BRACING WELDED, THE FRAME STANDS
