

A website concept for J.A.C. Welding & Fabrication

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your phone number and a free estimate one tap away on a phone
- A live welding arc between the words Welding and Fabrication that opens onto your shop as visitors scroll
- What you build, your certifications (A.S.M.E. Section IX, A.W.S. D1.1) and your project photos in one place

This is a design preview, not a live replacement for your current site. Texts, services and photos come from your current website and would be confirmed with you before anything goes live. Some smaller project photos were upscaled for this preview.

Welding

Fabrication

Shop and portable welding in Fort Worth, near the Stockyards. Repairs and custom fabrication in carbon steel, stainless and aluminum, from minor fixes to major construction.

Call for a free estimate

What we build

A.S.M.E. SECTION IX · A.W.S. D1.1 CERTIFIED

WHAT WE BUILD

From a motor mount to a mezzanine.

01	Tables, stands & work surfaces	Stainless and aluminum, food grade
02	Mezzanines, stairs & ladders	Structural steel, on site or in shop

03	Hoppers, tanks & reservoirs	Hydraulic reservoirs and manifolds
04	Skids	Gas well stimulation and power washer skids
05	Conveyors	Built to your specification
06	Motor & pump mounts	Brackets, cylinders and much more
07	Custom builds	Existing specs or built from your input
08	Repairs	Aluminum and steel tanks, aluminum wheels, cylinders

OUR SPECIALTY

Food grade
quality, in stainless
and aluminum.

Welding and fabrication with food grade quality capability, plus
hard facing, build-up and overlay for worn surfaces.

SMAW · stick GTAW · TIG GMAW · MIG FCAW · flux core Brazing Soldering Spot welding
Hard facing

On most types of metal: stainless and carbon steel, aluminum, cast iron, brass, copper
and some heat treatable carbon steels.

IN THE SHOP

A full shop, ready for your job.

A full-size shear and press brake for metal forming, and a large
inventory of in-house equipment.

+ SHEAR

+ PRESS BRAKE

+ ROLL

+ PINCH ROLL

+ SPOT WELDER

+ IRON WORKER

+ FLUX CORE & MIG WELDERS

+ PLASMA CUTTER

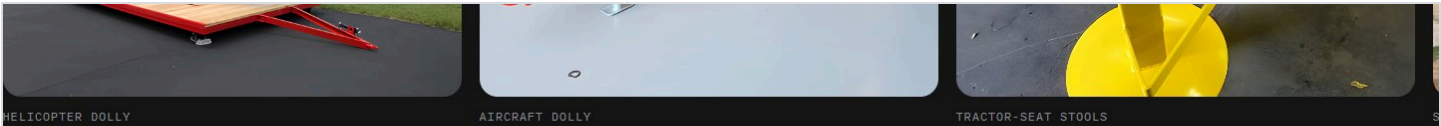

+ AUTOMATIC SAW
