

A website concept for Manjula P. Modi, CPA PLLC

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your phone number and a free consultation request one tap away on a phone
- "Your business + our expertise = numbers that add up", with a calculator tape that prints your services
- Your background as a former IRS agent and your Certified Tax Coach seal up front

This is a design preview, not a live replacement for your current site. Texts, services and badges come from your current website and would be confirmed with you before anything goes live.
