NORTHFRAME · WEBSITE DESIGN

A website concept for GTZ Powder Coating & Auto Styling

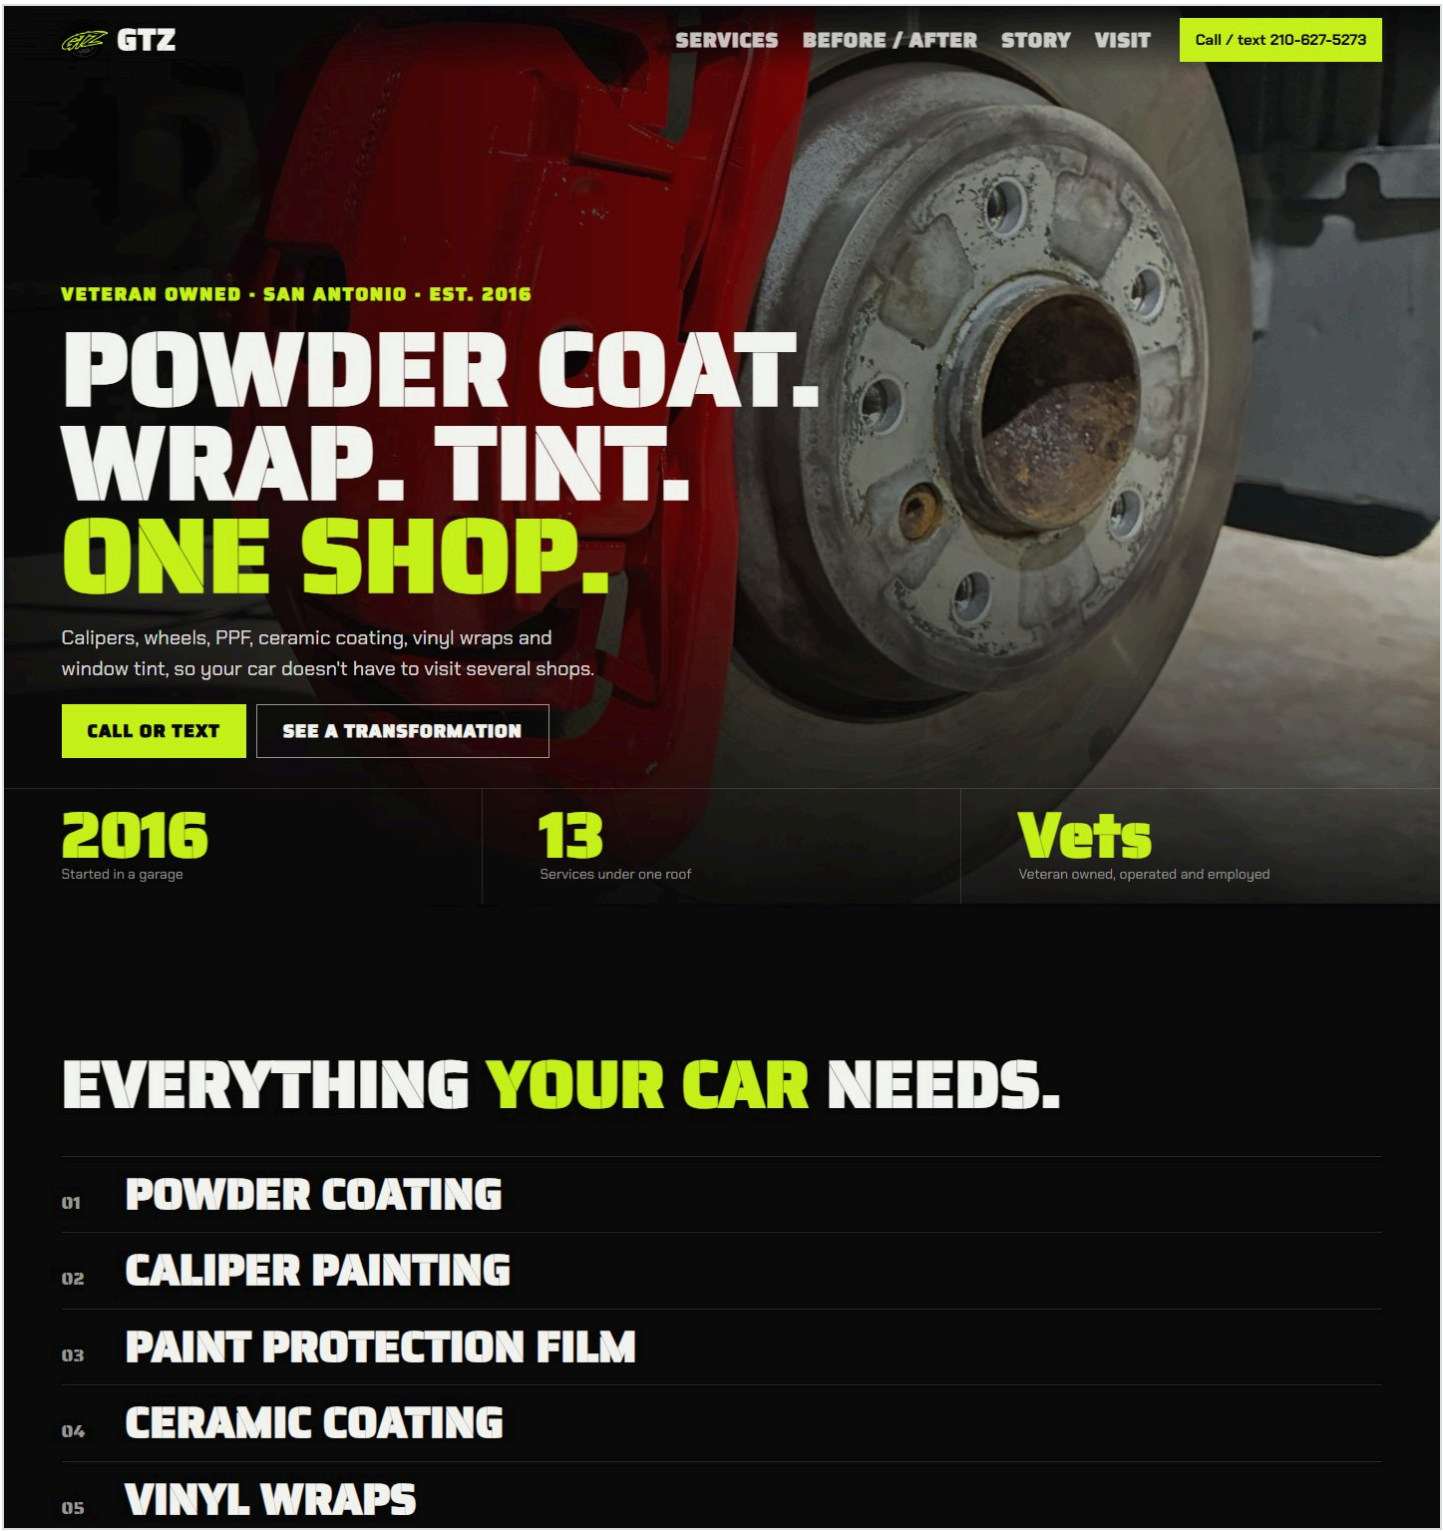

An independent design proposal: how your website could look on a desktop screen and on a phone.

- "Powder coat. Wrap. Tint. One shop." over your caliper photo, with 2016, your services and "veteran owned" right below
- All services as one list; on a computer the matching photo follows the cursor
- A before-and-after slider with the pink Civic, your garage story, and call or text one tap away

This is a design preview, not a live replacement for your current site. Services, story, hours and photos come from your current website and would be confirmed with you before anything goes live. Your site lists two addresses; the one shown here would be checked with you.

BEFORE / AFTER

SAME CAR. NEW IDENTITY.

Drag the handle: a pink Civic leaves as a Red Bull race car.

OUR STORY

WHAT STARTED OFF AS A DREAM IN A GARAGE.

GTZ began in 2016 with one idea: a one-stop shop, so customers don't get sent to multiple shops to customize their vehicle. Today we are veteran owned, operated and employed, and customer satisfaction and the quality of our work stay our top priority.
