

A website concept for CHS Architects

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your contact one tap away on a phone, from the first screen
- Your portfolio of more than 40 named projects, sorted by sector
- Your story since 1984, your founder and your services in one place

This is a design preview, not a live replacement for your current site. Texts, project list and photos come from your current website and would be confirmed with you before anything goes live. Open project details are marked as placeholders.

IN THE NEWS

ARLINGTON RETAIL-OFFICE PROJECT BREAKS GROUND

Despite a difficult credit market, an Arlington developer launched a 101,000-square-foot, \$20 million retail-office project aimed at drawing traffic from a major sports complex nearby.

From CHS news. [Date and project name to confirm]

1984

STUDIO

ESTABLISHED IN ARLINGTON, EARLY 1984.

In the heart of the Dallas and Fort Worth region, to provide creative design and architectural services at local, national and international levels. Each project is designed and engineered by a team of experienced staff and professionals, managed by a CHS principal.

MOJY HADDAD, AIA

President and founder. Registered architect in Texas and several other states. Master's degrees in Architecture and in City and Regional Planning from the University of Texas at Arlington.
