NORTHFRAME · WEBSITE DESIGN

A website concept for Furniture & Upholstery Repair & Restoration

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Call or text and a quote request one tap away on a phone
- A before and after slider: visitors drag across your own recliner, sofa, armoire and chair restorations
- Your six services, insurance and moving claims, and commercial maintenance plans laid out clearly

This is a design preview, not a live replacement for your current site. Services and project photos come from your current website and would be confirmed with you before anything goes live. The before and after pairs were cut from your photo collages.
