NORTHFRAME · WEBSITE DESIGN

A website concept for Linda's Jewelry

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your phone number and directions one tap away on a phone
- A jeweler's loupe: visitors move over your rings and earrings and see the stones up close
- Your collection in clear categories, plus casting and repairs done in the shop

This is a design preview, not a live replacement for your current site. Texts, categories, logo and product photos come from your current website and would be confirmed with you before anything goes live. Product photos were upscaled for this preview.
