NORTHFRAME · WEBSITE DESIGN

A website concept for Triple J Ranch Feed Store

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your phone number and directions one tap away on a phone, with a live "Open now" sign based on your hours
- "Feed the need for every breed": visitors pick their animal and see what you carry for it
- Your hay, brands and the Jenkins family story, with a round bale that rolls across the page

This is a design preview, not a live replacement for your current site. Texts, brands, hours and photos come from your current website and would be confirmed with you before anything goes live. Some smaller photos were upscaled for this preview.
