NORTHFRAME · WEBSITE DESIGN

A website concept for ATD Metalworks

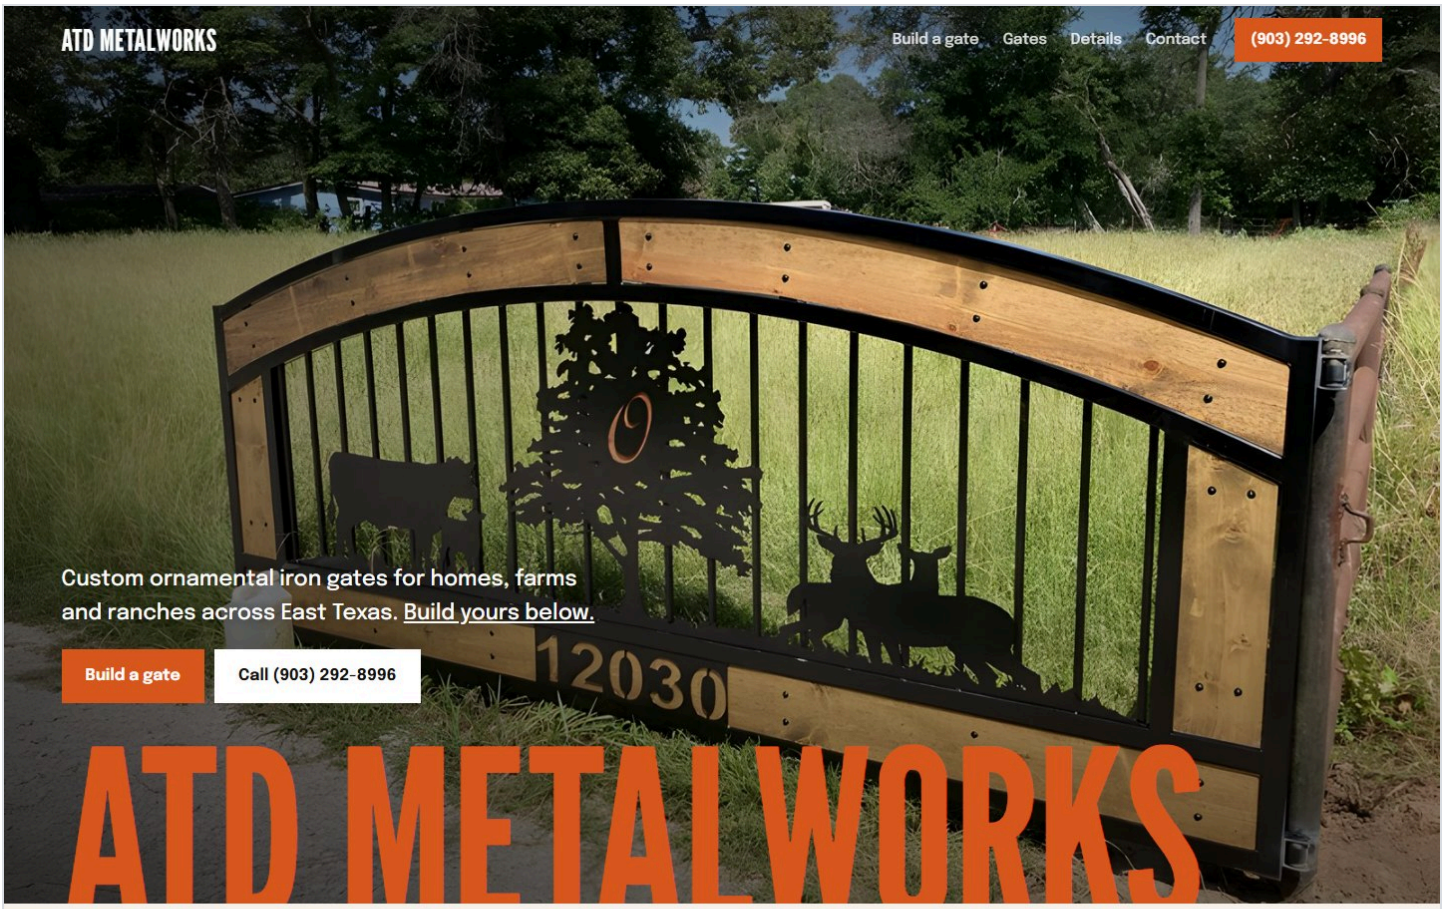

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your cedar arch gate in the first screen under a huge orange "ATD Metalworks", with "Build a gate" and the phone number
- A gate builder with the options of your own quote form: arch, bell or straight, cedar accents, star or initial, length and opener
- Your gates in a swipeable row, the material details (2 inch 14 gauge, 3/4 inch pickets) and two of your client reviews

This is a design preview, not a live replacement for your current site. Gate options, prices, materials, reviews and photos come from your current website and would be confirmed with you before anything goes live. Some photos were upscaled for this preview.

Driveway gates · Ranch entrances · Access control · Gate repair · Openers for existing gates · Solar & electric operators · Keypads · Cellular telephone entry · CNC plasma artwork

“WE LOVE THE GATE, IT WAS EXACTLY WHAT WE WANTED. THE PRICE WAS MORE THAN FAIR, AND THE INSTALLATION LOOKS TOP NOTCH.”

Pete Neally

“I GOT EXACTLY THE DESIGN I ASKED FOR AND THEY DID IT ALL, THE GATE, MOTOR, RAILING EVERYTHING.”

John Trout
