

A website concept for Burleson Dental Care

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Same-day emergency care and your phone number one tap away on a phone
- Dr. Sohi's portrait in the tooth shape from your own branding
- Your treatments, community awards and payment options (Sunbit, CareCredit, in-house plan) up front

This is a design preview, not a live replacement for your current site. Texts, photos and award badges come from your current website and would be confirmed with you before anything goes live.
