

A website concept for The Brooks at Weatherford

An independent design proposal: how your website could look on a desktop screen and on a phone.

- "Schedule a tour" and your phone number one tap away on a phone
- Your own photographs on a ring that slowly turns as visitors scroll, with the chapel (up to 250 guests) and the venue (up to 300) opening like arches
- Steve's architect sketches, your story and your Best of Weatherford awards up front

This is a design preview, not a live replacement for your current site. Texts, numbers, awards and photos come from your current website and would be confirmed with you before anything goes live.

OUR STORY

Steve & Tricia Heflin

To live closer to their children and grandchildren, they closed their long-time San Antonio business and moved to the Fort Worth area. Thirty-five years of marriage and a bit of divine direction led them to a 21-acre farm outside historic Weatherford.

Steve collected architectural elements from Texas and Santa Fe, among them 300-year-old doors, gables, mirrors and rustic wagons, and built the chapel and venue around them.

“Marriage is worth the staying and definitely worth the celebrating.”
