NORTHFRAME · WEBSITE DESIGN

A website concept for Carmela Davis, CPA, PLLC

An independent design proposal: how your website could look on a desktop screen and on a phone.

- Your phone number and email one tap away on a phone
- A live countdown to the next federal tax deadline on the first screen
- Your 40+ years, team of 20, services, Carmela's background and tax-season hours, clearly laid out

This is a design preview, not a live replacement for your current site. Services, biography, affiliations, hours and photos come from your current website and would be confirmed with you before anything goes live. The countdown uses general federal dates.
